Question1:amazon Bugs

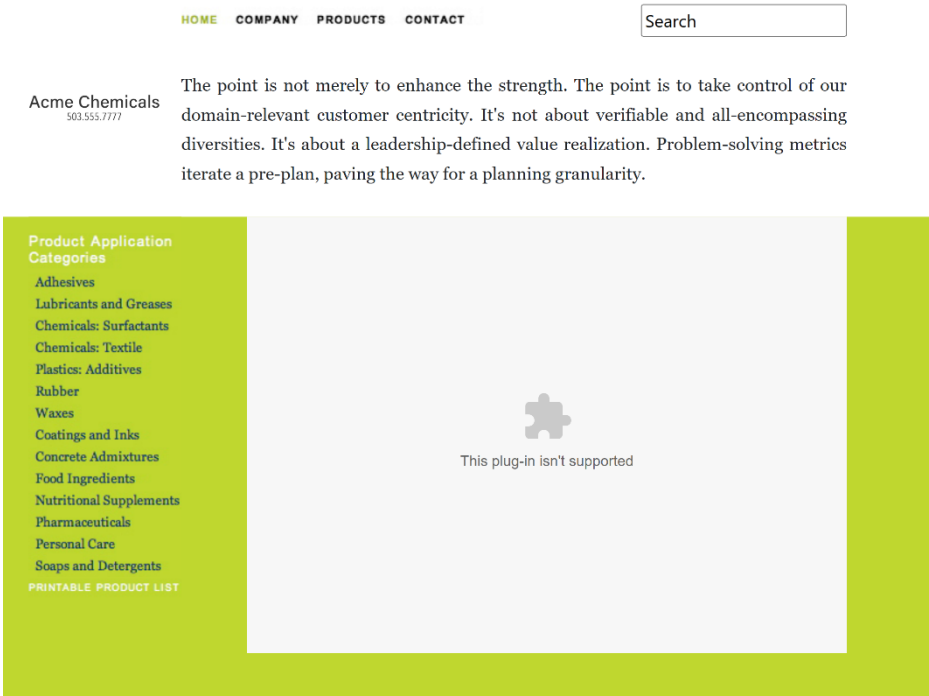

ID	1
Title	Inconsistent Font Sizes
Steps	<ol style="list-style-type: none"> 1. Open the website http://s3-design-sample-site.s3-website-us-west-2.amazonaws.com/index.html 2. Observe the text difference in size between the following and the main body text: The top navigation tabs The “Product Application Categories” menu The Logo 3. Observe the two titles texts “Product Application Categories” and “PRINTABLE PRODUCT LIST” in the Left side menu
Expected Results	All texts is proportion to each other in size and Logo is larger than main body text.
Real Results	<ul style="list-style-type: none"> • The following are too small in comparison with the main body text: The top navigation tabs The “Product Application Categories” menu The Logo • “Product Application Categories” and “PRINTABLE PRODUCT LIST” has different size and case. “PRINTABLE PRODUCT LIST” maybe mistaken to be one of the “Product Application Categories” list 

ID	2
Title	Search Box Text And UI Is Not Proportional
Steps	<ol style="list-style-type: none"> 1. Open the website http://s3-design-sample-site.s3-website-us-west-2.amazonaws.com/index.html 2. Observe the text in the search box 3. Compare the font size of the text "Search" relatively to the size of the UI search box 4. Compare the font size of the text "Search" to the size of main body text 5. Compare the size of the "Search" box UI to the size of top navigation menu
Expected Results	<ul style="list-style-type: none"> • Text "Search" inside the search box is proportional to the box UI size. • "Search" text is proportional to the main body text size • "Search" box UI is proportional to the top navigation menu
Real Results	<ul style="list-style-type: none"> • "Search" box text font is not proportional to the UI box, the text is too big for the box. • "Search" box UI is not proportional to top tabs The outline of the UI box is too heavy • "Search" box UI is too big compared to the top navigation menu  <p>The screenshot shows the Acme Chemicals website. At the top, there is a navigation bar with links: HOME, COMPANY, PRODUCTS, and CONTACT. Below this, the main content area features the Acme Chemicals logo on the left and a paragraph of text on the right. A search box is located in the top right corner, containing the text 'Search'. The search box is highlighted with a red oval, indicating that its text and UI are not proportional to the rest of the page.</p>

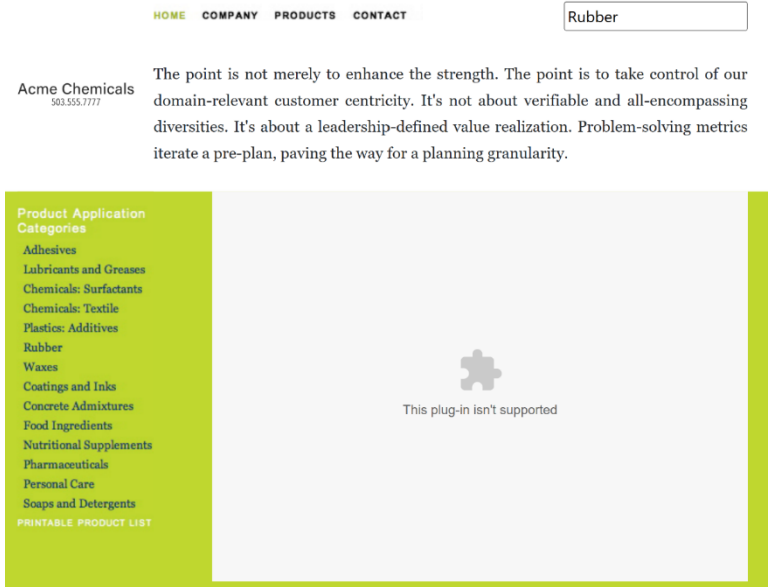

ID	3
Title	Elements In UI Are Not Proportion to Each Other
Steps	<ol style="list-style-type: none"> 1. Open the website http://s3-design-sample-site.s3-website-us-west-2.amazonaws.com/index.html 2. Observe the size of the picture in the home page to the “Product Application Categories” menu
Expected Results	Picture size is proportional to the “Product Application Categories” menu beside it
Real Results	<p>The size of the picture not proportional to the Left menu, menu banner need to be enlarged.</p> 

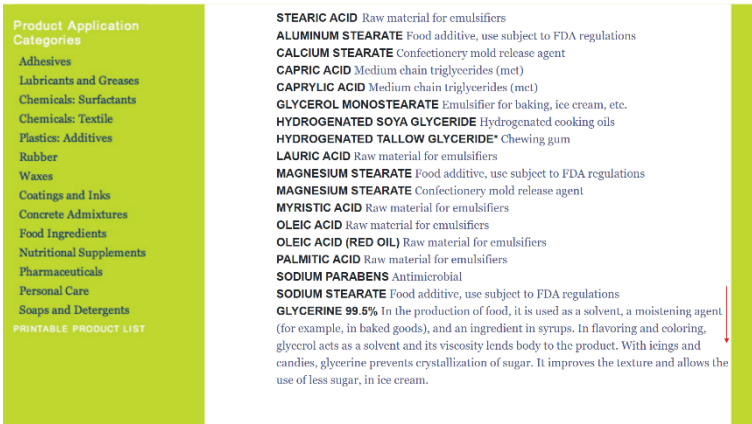

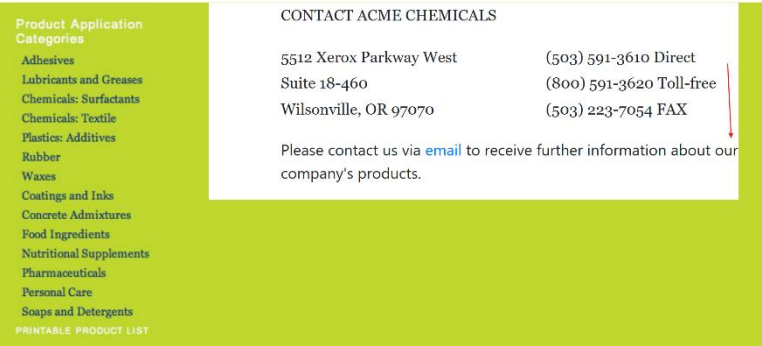

ID	4
Title	Website Is Not Secured
Steps	<ol style="list-style-type: none"> 1. Navigate to the website http://s3-design-sample-site.s3-website-us-west-2.amazonaws.com/index.html 2. Observe URL
Expected Results	URL should be secured starting with “https”
Real Results	Website is not secured, URL starting with “http”

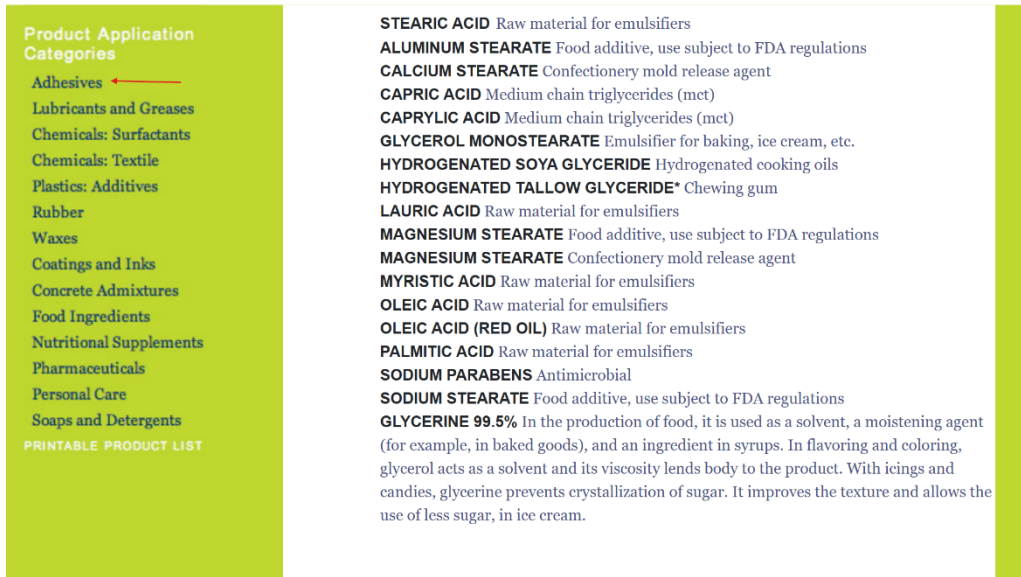

ID	5
Title	Poor Resolution For UI Text Buttons (Top tabs and Left Side Menu)
Steps	<div>3. Navigate to the website http://s3-design-sample-site.s3-website-us-west-2.amazonaws.com/index.html</div> <div>4. <u>Observe texts in top tabs and texts in left side menu</u> in the home page</div>
Expected Results	Texts should have good resolution
Real Results	<div>Texts have poor resolution compared by other texts in website</div> <div><p>The screenshot displays the Acme Chemicals website. At the top, a navigation bar contains links: HOME, COMPANY, PRODUCTS, and CONTACT. A red arrow points to the 'HOME' link, which is blurry. Below the navigation bar is a search input field with the placeholder text 'Search'. The main content area features the company name 'Acme Chemicals' with a phone number '503.555.7777'. To the right of the company name is a paragraph of text: 'The point is not merely to enhance the strength. The point is to take control of our domain-relevant customer centricity. It's not about verifiable and all-encompassing diversities. It's about a leadership-defined value realization. Problem-solving metrics iterate a pre-plan, paving the way for a planning granularity.' Below this text is a large green sidebar menu titled 'Product Application Categories'. The menu lists various categories: Adhesives, Lubricants and Greases, Chemicals: Surfactants, Chemicals: Textile, Plastics: Additives, Rubber, Waxes, Coatings and Inks, Concrete Admixtures, Food Ingredients, Nutritional Supplements, Pharmaceuticals, Personal Care, and Soaps and Detergents. At the bottom of the sidebar is a link 'PRINTABLE PRODUCT LIST'. A red arrow points to the 'Adhesives' category, which is blurry. To the right of the sidebar is a large white area with a puzzle piece icon and the text 'This plug-in isn't supported'.</p></div>

ID	6
Title	Home Page Contains Unsupported Plugin
Steps	<ol style="list-style-type: none">1. Navigate to the website http://s3-design-sample-site.s3-website-us-west-2.amazonaws.com/index.html2. Observe the photo exists in the center of the home
Expected Results	Photo should be available for view
Real Results	<p>Photo is not available for view and a message appeared that the plugin is not supported</p> 

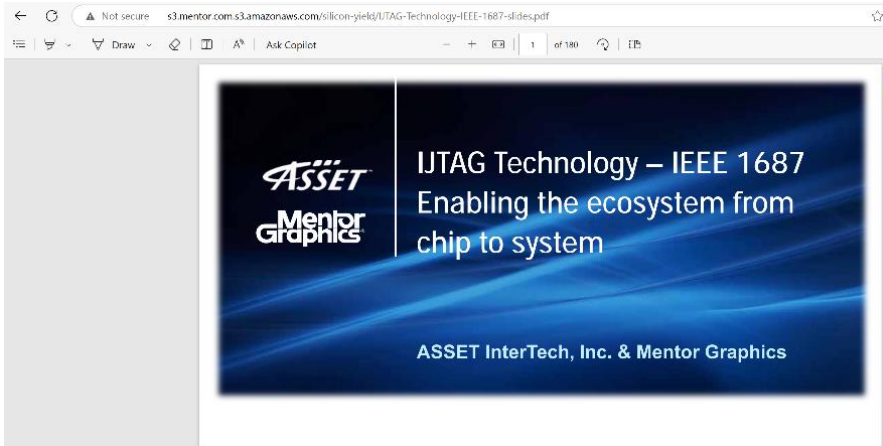

ID	7
Title	Search text inside the UI box is not acting as placeholder text
Steps	<ol style="list-style-type: none"> 1. Navigate to the website http://s3-design-sample-site.s3-website-us-west-2.amazonaws.com/index.html 2. Click on search field
Expected Results	Search field acts as placeholder text that allows typing once clicked
Real Results	<p>Search field contains a fixed text</p> 

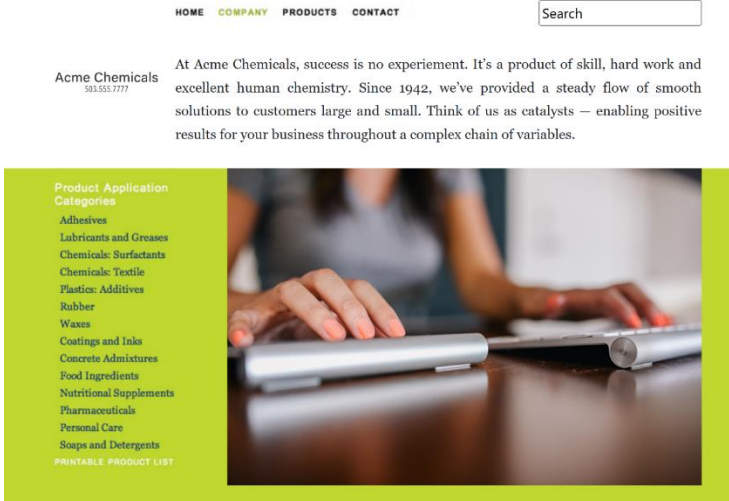

ID	8
Title	Search Functionality is not working For All Navigation Pages
Steps	<ol style="list-style-type: none"> 1. Navigate to the website http://s3-design-sample-site.s3-website-us-west-2.amazonaws.com/index.html 2. Click on search field 3. Search for Rubber 4. Click Enter
Expected Result	All “Rubber” texts are highlighted in the webpage
Real Results	<p>No any highlighting of filtering done, search functionality is not working</p> 

ID	9
Title	Text in Embedded pictures Is Not Centered
Steps	<ol style="list-style-type: none"> 1. Navigate to the website http://s3-design-sample-site.s3-website-us-west-2.amazonaws.com/index.html 2. Click on “Adhesives” from the “Product Application Categories” menu 3. Observe the picture viewed 4. Click on “Contact” from the top menu
Expected Results	Texts inside pictures are centered in to the page
Real Results	<p>Texts inside pictures are not centered</p> <p>Adhesives view</p>  <p>Contact view</p> 

ID	10
Title	White Selection Disappeared On Items In The List After Selecting any Product Application Category
Steps	<ol style="list-style-type: none"> 1. Navigate to the website http://s3-design-sample-site.s3-website-us-west-2.amazonaws.com/index.html 2. Click on “Adhesives” from the “Product Application Categories” menu 3. Observe the menu after clicking
Expected Results	White selection made on item even after selection
Real Results	<p>White selection available only on hovering over the items then disappear</p>  <p>The screenshot shows a green sidebar menu titled 'Product Application Categories' with a red arrow pointing to 'Adhesives'. The main content area lists various chemical products with their descriptions. The 'Adhesives' category is highlighted in green.</p> <p>Product Application Categories</p> <ul style="list-style-type: none"> Adhesives Lubricants and Greases Chemicals: Surfactants Chemicals: Textile Plastics: Additives Rubber Waxes Coatings and Inks Concrete Admixtures Food Ingredients Nutritional Supplements Pharmaceuticals Personal Care Soaps and Detergents PRINTABLE PRODUCT LIST <p>STEARIC ACID Raw material for emulsifiers ALUMINUM STEARATE Food additive, use subject to FDA regulations CALCIUM STEARATE Confectionery mold release agent CAPRIC ACID Medium chain triglycerides (mct) CAPRYLIC ACID Medium chain triglycerides (mct) GLYCEROL MONOSTEARATE Emulsifier for baking, ice cream, etc. HYDROGENATED SOYA GLYCERIDE Hydrogenated cooking oils HYDROGENATED TALLOW GLYCERIDE* Chewing gum LAURIC ACID Raw material for emulsifiers MAGNESIUM STEARATE Food additive, use subject to FDA regulations MAGNESIUM STEARATE Confectionery mold release agent MYRISTIC ACID Raw material for emulsifiers OLEIC ACID Raw material for emulsifiers OLEIC ACID (RED OIL) Raw material for emulsifiers PALMITIC ACID Raw material for emulsifiers SODIUM PARABENS Antimicrobial SODIUM STEARATE Food additive, use subject to FDA regulations GLYCERINE 99.5% In the production of food, it is used as a solvent, a moistening agent (for example, in baked goods), and an ingredient in syrups. In flavoring and coloring, glycerol acts as a solvent and its viscosity lends body to the product. With icings and candies, glycerine prevents crystallization of sugar. It improves the texture and allows the use of less sugar, in ice cream.</p>

ID	11
Title	Selecting Different Items in Product Application Categories Point To The Same Picture
Steps	<ol style="list-style-type: none"> 1. Navigate to the website http://s3-design-sample-site.s3-website-us-west-2.amazonaws.com/index.html 2. Click on “Food Ingredients” from the “Product Application Categories” menu 3. Then click ok “Rubber” 4. Observe the picture viewed
Expected Results	Different pictures assigned to different categories
Real Results	<p>One picture assigned to all categories</p> <div>   </div> <p>STEARIC ACID Raw material for emulsifiers ALUMINUM STEARATE Food additive, use subject to FDA regulations CALCIUM STEARATE Confectionery mold release agent CAPRIC ACID Medium chain triglycerides (mct) CAPRYLIC ACID Medium chain triglycerides (mct) GLYCEROL MONOSTEARATE Emulsifier for baking, ice cream, etc. HYDROGENATED SOYA GLYCERIDE Hydrogenated cooking oils HYDROGENATED TALLOW GLYCERIDE* Chewing gum LAURIC ACID Raw material for emulsifiers MAGNESIUM STEARATE Food additive, use subject to FDA regulations MAGNESIUM STEARATE Confectionery mold release agent MYRISTIC ACID Raw material for emulsifiers OLEIC ACID Raw material for emulsifiers OLEIC ACID (RED OIL) Raw material for emulsifiers PALMITIC ACID Raw material for emulsifiers SODIUM PARABENS Antimicrobial SODIUM STEARATE Food additive, use subject to FDA regulations GLYCERINE 99.5% In the production of food, it is used as a solvent, a moistening agent (for example, in baked goods), and an ingredient in syrups. Title	Printable product list downloads the wrong PDF
Steps	<ol style="list-style-type: none"> 1. Navigate to the website http://s3-design-sample-site.s3-website-us-west-2.amazonaws.com/index.html 2. Click on “PRINTABLE PRODUCT LIST” on the left side menu 3. Observe the exported PDF
Expected Results	PDF exported with product list
Real Results	<p>Irrelevant PDF is exported</p>  <p>The screenshot shows a web browser window displaying a PDF document. The address bar indicates the URL is s3.mentor.com.s3.amazonaws.com/silicon-yield/IJTAG-Technology-IEEE-1687-slides.pdf. The PDF content features a blue background with white text and logos. The text reads 'IJTAG Technology – IEEE 1687 Enabling the ecosystem from chip to system'. The logos for 'ASSET' and 'Mentor Graphics' are visible on the left side of the slide. At the bottom, it says 'ASSET InterTech, Inc. & Mentor Graphics'.</p>

ID	13
Title	Error-403 Forbidden Encountered While Switching Between Tabs
Steps	<ol style="list-style-type: none"> 1. Navigate to the website http://s3-design-sample-site.s3-website-us-west-2.amazonaws.com/index.html 2. Select “PRODUCTS” from top menu 3. Select “HOME” from top menu 4. Select “Adhesive” from “Product Application Categories” 5. Select “COMPANY” from top menu
Expected Results	<p>“COMPANY” navigation page opens</p> 
Real Results	<p>Website redirects and gives 403 Forbidden</p> 

Question3: My Store Bugs

ID	14
Title	Incorrect Filter Result _ Dress Filter Result Shows T-shirt Item
Steps	<ol style="list-style-type: none">1. Navigate to the website My Store2. Type “Dress” in the search field3. Submit the search by pressing Enter button4. Review items in page after search result
Expected Results	All items should be dresses only
Real Results	<p>T-shirt item appeared as a search result for “Dress”</p>  <p>Faded Short Sleeves T-shirt</p>

ID	15
Title	Incorrect Filter Result _ Dress Filter Result Shows Blouse Item
Steps	<ol style="list-style-type: none">1. Navigate to the website My Store2. Type “Dress” in the search field3. Submit the search by pressing Enter button4. Review items in page after search result
Expected Results	All items should be dresses only
Real Results	<p>Blouse item appeared as a search result for “Dress”</p>  <p>Blouse</p>

Question4 : APIs Bugs

ID	16
Title	Create User _ Token Missing In Response For Successfully Created User
Description	The API CREATE USER did not return the token in the response after creating a new.
Steps	<ol style="list-style-type: none">1. Send POST request to http://localhost:3000/api/v1/users with body: <pre>{ "name": "user", "email": "el_alfy_me@gmail.com", "password": "user123" }</pre>2. Check the response body
Expected Results	<ul style="list-style-type: none">• Status Code 200• Response body contains token• Message: “User registered with success”
Real Results	<ul style="list-style-type: none">• Status Code 200• Response body missing token• Message: “Token does not exist in the response” <pre>1) CREATE USER should create a user and return a token: AssertionError [ERR_ASSERTION]: Token does not exist in the response at Context.<anonymous> (UserAPIs.test.js:24:12) at process.processTicksAndRejections (node:internal/process/task_queues:105:5)</pre>

ID	17
Title	Create User _ User Is Successfully Created With Invalid Request Body
Description	The API CREATE USER created a user from a request that has invalid body.
Steps	<p>1. Send POST request to http://localhost:3000/api/v1/users with body:</p> <pre>{ "name": "", "email": "invalidemail", "password": "" }</pre> <p>2. Check the response body</p>
Expected Results	<ul style="list-style-type: none"> • Status Code 401 • Response body contains message indicates invalid body
Real Results	<ul style="list-style-type: none"> • Status Code 200 • Message: “User registered with success” <pre> 2) CREATE USER should fail to create user - invalid body: AssertionError [ERR_ASSERTION]: Expected: 401, Actual: 200 200 !== 401 + expected - actual -200 +401 at Context.<anonymous> (UserAPIs.test.js:39:9) at process.processTicksAndRejections (node:internal/process/task_queues:105:5) </pre> <pre> 2) CREATE USER should fail to create user - invalid body: AssertionError [ERR_ASSERTION]: Expected: Invalid body, Actual: User registered with success + actual - expected + undefined - 'Invalid body' at Context.<anonymous> (UserAPIs.test.js:40:9) at process.processTicksAndRejections (node:internal/process/task_queues:105:5) </pre>

ID	18
Title	Patch User By Token _ User Is Updated Successfully With Invalid Request Body
Description	The API PATCH USER BY TOKEN updated user details from a request that has invalid body.
Steps	<p>1 Send PATCH request to http://localhost:3000/api/v1/users with body:</p> <pre>{ "name": "", "email": "invalidemail", "password": "" }</pre> <p>2. Check the response body</p>
Expected Results	<ul style="list-style-type: none"> Status Code 401 Response body contains message indicates invalid body
Real Results	<ul style="list-style-type: none"> Status Code 200 Message: "User registered with success" <pre> 3) PATCH USER BY TOKEN should fail to update user - valid token - invalid body: AssertionError [ERR_ASSERTION]: Expected status 401, Actual 200 200 !== 401 + expected - actual -200 +401 at Context.<anonymous> (UserAPIs.test.js:159:12) at process.processTicksAndRejections (node:internal/process/task_queues:105:5) </pre> <pre> 3) PATCH USER BY TOKEN should fail to update user - valid token - invalid body: AssertionError [ERR_ASSERTION]: Expected: Invalid body, Actual: User updated with success! actual expected 'User updInvatelid with success!body' + expected - actual -User updated with success! +Invalid body at Context.<anonymous> (UserAPIs.test.js:160:12) at process.processTicksAndRejections (node:internal/process/task_queues:105:5) </pre>

ID	19
Title	Delete User By Token _ User With Valid Admin Key Unauthorized To Delete
Description	The API DELETE USER BY TOKEN fails to delete a user with a valid admin key giving that it is unauthorized to delete
Steps	<ol style="list-style-type: none"> 1. Send DELETE request to http://localhost:3000/api/v1/users 2. Set Authorization with a valid token 3. Check the response body
Expected Results	<ul style="list-style-type: none"> • Status Code 200 • Response body contains message: "User deleted with success"
Real Results	<ul style="list-style-type: none"> • Status Code 403 • Message: "Unauthorized to delete" <pre> 4) DELETE USER BY TOKEN should delete user - valid token: AssertionError [ERR_ASSERTION]: Expected status 200, Actual 403 403 !== 200 + expected - actual -403 +200 at Context.<anonymous> (UserAPIs.test.js:206:12) at process.processTicksAndRejections (node:internal/process/task_queues:105:5) </pre> <pre> 4) DELETE USER BY TOKEN should delete user - valid token: AssertionError [ERR_ASSERTION]: Expected message User deleted with success, Actual 'Unauthorized to delete' actual expected 'Unauthorized to delete' 'Unauthorized to delete' + expected - actual -Unauthorized to delete +User deleted with success at Context.<anonymous> (UserAPIs.test.js:207:12) at process.processTicksAndRejections (node:internal/process/task_queues:105:5) </pre>
